

Francis Earl Fojas

Front-end Developer (Angular) | Full-stack Experience

080 J.P. Rizal St., Manila | 09984433996 | francisearl.fojas@gmail.com | linkedin.com/in/earlfojas

EDUCATION:

**PAMANTASAN NG LUNGSOD NG
MAYNILA**
2014 - 2018

Bachelor of Science in Computer
Studies, Major in Computer Science

TECH STACK:

- Angular
- TypeScript
- RxJS
- JavaScript
- HTML
- CSS
- Claude Code
- Spring Boot
- REST APIs
- SQL
- Git
- Tailwind CSS
- Bootstrap
- GitHub Actions
- Bamboo
- React

TOOLS:

- Jira
- Confluence

SUMMARY:

Front-End Developer with 8 years of experience building and maintaining enterprise web applications using Angular and modern web technologies. Possesses 4 years of backend development experience with Spring Boot and SQL, enabling effective collaboration across the full application stack. Has experience in REST API design and integration, CI/CD pipelines, and AI-assisted software development using Claude Code. Seeking opportunities to expand into full-stack development while leveraging a strong frontend foundation.

EXPERIENCE:

FRONTEND DEVELOPER **JAN 2025 - PRESENT**
Macquarie Group Services (Philippines), Inc.

- Developed and maintained new features using Angular, Spring Boot, and SQL within an Agile environment, collaborating in sprint planning, daily stand-ups, and retrospectives while leveraging Claude Code to accelerate development, debugging, and code quality improvements.
- Planned and initiated the modernization of our Angular application by implementing automated tests, upgrading framework versions, improving project structure, removing technical debts, and establishing CI/CD pipelines.
- Provided production support by investigating issues, implementing timely resolutions, preparing incident reports, and communicating updates to end users.
- Written technical documentation covering Angular modernization initiatives and production issue resolutions
- Conducted UI presentations for stakeholders, gathering feedback and aligning development efforts with business requirements.

SKILLS:

- Front-End Development
- Full-Stack Development
- REST API Design & Integration
- Requirements Analysis
- Client & Stakeholder Communication
- Features Presentations
- Wireframing & UI Planning
- CI/CD Implementation
- Technical Documentation
- Production Support

FRONTEND DEVELOPER SEP 2021 - NOV 2024

Samsung Electronics Philippines Corporation

- Developed and maintained multiple web applications using Angular, React, and GitHub Pages.
- Spearheaded the front-end revamp of a web application by enhancing its UI/UX, implementing new features, upgrading technologies, and improving code quality through compliance with organizational code standards.
- Optimized data retrieval performance in an admin portal by refactoring the code and improving its logic.
- Maintained regular communication with Korean counterparts through daily updates, project discussions, and scheduled demonstrations.
- Introduced unit testing to a web application with no existing testing coverage.

SOFTWARE ENGINEER JUL 2018 - SEP 2021

Pointwest Innovations Corporation

- Developed and maintained multiple web applications using Angular, jQuery, Java Spring Boot, SQL, and Salesforce
- Ensured web applications are mobile responsive, cross-browser compatible and secured.
- Led a team of developers for a wealth management web application which was completed and delivered earlier than the scheduled project end date.
- Improved the speed of data retrieval in an admin portal by utilizing caching, lazy loading, and Ahead-of-Time compilation in Angular.
- Collaborated with local and foreign clients through daily updates, requirements gathering, and scheduled demos.

FRONTEND DEVELOPER INTERN APR - MAY 2017

Indra Philippines, Inc.

- Developed a skills inventory web application using Angular as a solo front-end developer while collaborating with other intern back-end developers.
